Turn-Outs.

An alleged weakness is imputed to some of our City Fathers, who evince a strange hostility to "turn-outs" for railroad tracks, but uniformly turn in on their passes for travel. We do not desire to turn out any Councilman, but we hope Councilmen will favor at once turn-outs for convenience on railroad tracks.

Have We A City Marshal, Legally, Among Ust

A question of interest to the people remains unsettled, whether the appointment of BESJA-MIN ROBINSON, as Chief of Police by the Police Commissioners, or the election by the people of JOHN S. GANO, as City Marshal, is according to law. The City Council has recently reawakened an earnest consideration of the merits of the case. On Saturday, the subject was before Judge Marton in the Hamilton County District Court, who will determine to-day whether the sause shall come up for hearing immediately, or be reserved for the direct and final determination of the Supreme

The News.

The line of telegraph specially constructed from Farther Point on the St. Lawrence River, three hundred miles below the City of Quebec, Canada East, passed to us last night a meagre portion of news from Europe to the 12th inst., by the Anglo-Sanon. Two Great Eastern has made a trip to Holyhead, but from defects of the boiler will have to make suitable repairs, and perhaps may lay up at Southampton for repairs and not come to the United States.

Rumors prevail that a difficulty has occurred in the English Cabinet on the China question. The English Thunderer, the London Times, plays the bully toward the United States about the San Juan difficulty. If John Bull don't abut up, the Benicia Boy will give him a milling. The noted English Engineer, Rost. STEPHENEON, is reported to be in a dying condition.

Masonic Grand Lodge of Ohio-Important Proceedings.

The Grand Lodge, recently in session in Columbus, has adjourned, and we take occasion to note some important legislation, interesting to the Craft, and others.

The following question was submitted to the Committee on Masonic Jurisprudence : DISCIPLING BY OTHER MASONIC RODIES DOES NOT EFFECT STANDING OF WASTER WASOES.

"Does the expulsion or suspension of a member of a Lodge from a Chapter of Royal Areb Masons affect his standing in a Lodge of Master Masons?" who made report "that Masould usage is clear upon this point-that expulsion or suspension from any other body of Masons can not affect the standing of a Muster Mason, and for obvious reasons.

"2. A Chapter of Royal Arch Masons might expel or suspend a member for the violation of some obligations or rule of which a Lodge of Master Masons was entirely ignorant, and which had no reference to any obligation or duty of a Master Mason."

The Committee finding that rule sixteen of the Grand Lodge of Ohio, for the government of subordinate Lodges, was in conflict with what they esteemed to be, as above, clearly established principles of Masonic law, recommended that rule sixteen be rescinded, which was unanimously agreed to.

The following rule is no longer one of the requirements, vis:

"SEC. 16. It shall be unlawful for any Lodge under this jurisdiction to receive as a visitor a brother while known to be under centence of suspension or expulsion from any constitutional Masonic body." CAN A MASTER OF A LODGE BESIGN HIS OFFICE?

It was determined that an officer of a reguhar Lodge, after having been duly elected and installed, can not resign his office so long as he remains a member of the Lodge. His place, on removal from the Lodge, by ancient usage, is filled by the Senior Warden, and in his absence, by the Junior Warden. EVIDENCE OF INFRINGEMENT OF JURISDICTION.

The following preliminary steps have been ordered by the Grand Lodge, to avoid great delay and confusion created at each session by the production on appeal offill-arranged testi-

Death of John Sayers.

We were present at the last meeting of the Cincinnati Horticultural Society in the Palace Garden Building, when Joun Savers, member of the Society and Chairman of its Council, announced his determined trip to Europe, with a request that his resignation should be accepted. Appreciating the value of his former service, and the expected increase of his usefulness, the resignation was not accepted, and the severance of his companionship with our enterprising gardeners was cheered with assurances of confidence and earnest appreciation of his merit, personally and professionally. He parted with us amid felicitations and in great hopebut, midway of the Atlantic the engulping waters awept the noble SAYERS from the deck of the laboring vessel, which was writhing like the Laocoon in the embrace of the marine monsters-the waves and the whirlwinds of the deep. He was in the unselfah act of serving others in the dark hour, and was borne fresh from the mission of benevolence to the home of the Author of his being, and the benevolent her wardrobe with Miss Flora McFlimser. Father of all good. The trembling ferns, the fuci and algae of the ocean garden will wave a noiseless requiem over the gardener of the West. No architectural splendor of man's sacred devotion covers the remains of our de-parted friend SAYERS, but his memory is enshriped in grateful hearts. His companions of the Cincinnati Horticultural Society have made record of their appreciation of his life and loss by the adoption on Saturday of the following resolutions:

WHEREAS, The painful and melancholy in-talligence has reached the members of the Cincinnati Horticultural Society that their fellow-member and honored citizen, John Sayers, is no more: that on the 22d day of September, 1859, about mid-ocean of the Atlantie, on board the steamship Basaria, and while in the performance of a humane duty, the waves dashed over the vessel's deck and hid his beloved form from our view forever;

The paddles averaged ten and the serow thirty-eight revonearly seventeen miles per hour. This was accomplished without special exertion by the engines, but there was considerable canvas spread. The weather was squally, and at times there was a long, heavy ground swell, causing, according to some authorities, a good deal of pitching and rolling, while others say that the motion at all times was very slight, and the ship under the most perfect control. The speech made by the Emperor produced a favorable impression. WASHINGTON, October 25. During the last week the Postmaster General discontinued seventy-five small postoffices, many others having been previously abolished.

The New Orleans Piccyuns of Tuesday, received by mail, says a number of private letters from Vera Crus allude to the threatened expedition against that city, Alvasodo and other places on the gulf coast, but none of the writers appear to entertain any fears of this, and not from any protection the Constitutional Govern-ment would be able to afford them, but from

the well-known jealousy of the opposing party. The argument appears to be this, that even in case Miramon really contemplated such an expedition, he would not dare set out on it lest during his absence Marques should seize upon the Government.
